

**Lesson Plan**

**LEARNING TO WORK WITH PHOTOSHOP**

**Date:** 6th of April, 2016

**School:** Zespół Szkół Nr 7, Gdynia, Poland

**Teacher:** Cristina Drăniceanu, “Marin Sorescu” Highschool of Arts, Craiova, Romania

**Level:** beginner

**Age:** 13-14

**Aims:** editing an image

**Activities:** speaking, explanation, practice online

**Outcomes:** students will be able to apply effects and filters on an image, following the rules of a game (assignment)

**Materials:** PC, post-its for the game

**Literature:** [www.onlinephotoshopfree.net](http://www.onlinephotoshopfree.net)

**Preparation:** 1. opening the online Photoshop program and uploading a Google image of choice, for the first exercise;

2. getting familiar to the program by learning the menu

## Outline

### Offering some information about Photoshop and its uses in different media

*Have you heard of Photoshop?*

*Do you know what it's used for?*

*Has anyone used it? Or the online version, that we're working on today?*

5 min

*Appart from cosmetic use (repairing features, for example), what other utility could this program have?*

### Giving students basic instructions before starting.

#### Teaching how to use the menu tools

*Students read the menu bars and we talk about each tool's function.*

10 min

### Exposing the assignment for students and helping reaching the best solution, guiding them all through the process

25 min

*Pick a post-it note from a box. Read the word written on it and notice its colour -the word reffers to european values and it's related to the project's main theme. Google an image of choice that is the most related to the word on the post-it and drag it to the program ([www.onlinephotoshopfree.net](http://www.onlinephotoshopfree.net)). Learn the simple steps of searching a high quality image on Google. Apply the written word's colour and effects to the image, also adding a personal message that relates to the project.*

### Interactive talking about the final outcome

5 min
